DETAILED ACTION

Allowable Subject Matter

Claims 3, 4, 7, 8 and 16-23 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or make obvious a first electrode extending through an opening formed in said supporting member from the second surface to the first surface thereof, and further extending to the tip portion through an opening centrally formed in the projection portion.

This limitation in combination with all the other limitations in the claims render the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
